

Phoenix Management, Inc.

PMI Contracts

A. 13 Active

1. Arizona – Yuma Proving Ground

Type of Work Accomplished: Logistics Support Services

Scope: Provide logistical support services to functional areas including Transportation, to include Transportation Motor Pool, Personal Property Shipping Office and freight service operations; and, Supply requirements include Supply Support Activity Management (Classes of Supply include I, II, IIIP, IV, VII and IX), Property Accountability (Property Book) at Yuma Proving Ground, AZ.

2. Florida – Homestead ARB

Type of Work Accomplished: Base Operations and Support Services

Scope: Provide all personnel, supervision, equipment, tools, materials, supplies, test equipment, and other items and services necessary to accomplish Supply, Vehicle Operations and Maintenance, Traffic Management, Transient Aircraft Maintenance, Real Property Maintenance, Fuels Management, Airfield Management, and Weather Services at Homestead ARB, FL.

3. Florida – Tyndall AFB

Type of Work Accomplished: Bulk Fuels Operations

Scope: Provide all personnel, operational and management services to accomplish bulk fuel storage services to safely and efficiently receive, store, transfer, issue and account for petroleum products.

4. Indiana – Grissom ARB

Type of Work Accomplished: Base Operating Services

Scope: Provide all personnel, supervision, equipment, vehicles, tools, materials, supplies, test equipment, and other items and services necessary to accomplish Supply, Vehicle Operations and Maintenance, Traffic Management, Real Property Maintenance, Fuels Management, Airfield Management and Weather Services at Grissom Air Reserve Base (ARB), IN. These services equate to the maintenance of all of the Facilities as well as all of the Logistics Services and Grounds Maintenance Services, keeping the installation running smoothly and with superb appearance throughout.

5. Massachusetts – Westover ARB

Type of Work Accomplished: Base Operating Services

Scope: Perform nearly all Facilities Maintenance and Logistics-related duties on the installation. Duties were comparable with those of an Air Force Base Logistics Group. Responsibilities include Base Supply; Vehicle Operations and Maintenance; Fuels Management; Traffic Management; and Real Property Maintenance and Services.

6. Montana – Billings, Bozeman, Butte, and Missoula

Type of Work Accomplished: Facilities Maintenance and Custodial Services

Scope: Perform full facilities maintenance services for multiple locations throughout the state of Montana. Services include mechanical maintenance, custodial services, grounds maintenance, snow removal and pest control services. The buildings serviced are: the Battin US Courthouse in Billings, Bozeman Federal Building and US Post Office, Mike Mansfield Federal Building and US Post Office in Butte, and the Missoula Federal Building and US Courthouse. Three of the locations are historical buildings and work performed on these structures must protect and preserve the historical integrity of the buildings.

7. Montana – Malmstrom AFB

Type of Work Accomplished: Materiel Control Services

Scope: Operate a Civil Engineer Materiel Acquisition function using the Enterprise Solution-Supply (ES-S), Logistics Support- Supply (ILS-S), Civil Engineer NexGen IT Transformation software (TRIRIGA), Enterprise Environmental Safety & Occupational Health Management Information System (EESOH-MIS).

8. Montana – Malmstrom AFB

Type of Work Accomplished: Dorm Campus Change of Occupancy Maintenance and Minor Maintenance

Scope: Provide Change of Occupancy Maintenance (COM) and perform other minor maintenance for dormitory rooms and common areas on Malmstrom Air Force Base (MAFB).

9. New Mexico – Cannon AFB

Type of Work Accomplished: Special Maintenance and Repair Team (SMART) Work Task Processing

Scope: Provide management, supervision and non-personal services in the performance of SMART task processing for facilities and buildings in support of the 27th Special Operations Civil Engineer Squadron's (27 SOCES) at Cannon AFB and Melrose AF Range.

10. North Dakota – Grand Forks AFB

Type of Work Accomplished: Furnishings Management and Dormitory Room Maintenance

Scope: We provide all management, labor, tools, equipment, transportation, and materials necessary to operate the base Furnishings Management Office (FMO) at Grand Forks AFB and maintain government-furnished property in support of the Dormitories and Fire Department. Our services include Furnishing Management, Control and Disposition of Assets, Carpet and Rug Cleaning, Minor Maintenance for Dorm Furnishings and Appliances, Inspections, and Change of Occupancy Maintenance for facilities. We provide furniture and furnishings for dormitories, lodging, unaccompanied officer and non-commissioned officer (NCO) quarters, and fire department sleeping and entertainment areas. We also perform inventory; repair; pickup and delivery; processing of requisitions and work orders; and establish and maintain budgets and plans. Our team manages all aspects related to government-provided furniture, equipment, tools, facilities, and other property.

11. Texas – San Antonio, Fort Sam Houston

Type of Work Accomplished: Building Management Services

Scope: Provide all personnel, equipment, supplies, facilities, transportation, tools, materials, and supervision to perform Building Management Services at Joint Base San Antonio-Fort Sam Houston, Texas. Assist the staff at the United States Army Training and Doctrine Command (TRADOC) Regulation 350-6, the US Army Medical Center of Excellence (MEDCoE) 32d Medical Brigade Management of Barracks Facilities to maintain the capability gap of managing buildings and performing required on-the-spot maintenance to improve quality of life and facilitate day-to-day instructions/learning.

12. Texas – Waco

Type of Work Accomplished: Facilities Maintenance and Custodial Services

Scope: Perform full facilities maintenance services at the Waco Courthouse. Services include mechanical maintenance, custodial services, grounds maintenance, snow removal and pest control services.

13. Washington – Land Ports of Entry (LPOE)

Type of Work Accomplished: Facilities Operations and Maintenance Services, – various locations NW Washington

Scope: PMI provides management, supervision, personnel, labor, materials, equipment, and supplies and is responsible for the efficient, effective, economical, and satisfactory operation, scheduled and unscheduled maintenance, and repair of equipment and systems located within buildings inside the property line of the Pacific Highway LPOE; Peace Arch LPOE; Border Sector Headquarters, Annex, & Seizure Vault in Blaine, WA; Kenneth G. Ward LPOE in Lynden, WA; Sumas LPOE in Sumas, WA;

and Point Roberts LPOE in Point Roberts, WA. Work includes the following: electrical systems and equipment; mechanical, plumbing, Building Automation System (BAS), heating, boilers, chillers, ventilation systems, exhaust systems and air conditioning (HVAC) systems and equipment; fire protection and life safety systems and equipment; Building Monitor and Controls systems; architectural and structural systems, fixtures, and equipment; Work Request/Work Order desk operations, to include record keeping using a National Computerized Maintenance Management System (NCMMS), as well as other administrative functions; mechanical equipment for window washing (wall glider, tracks, davits, pedestals and associated equipment); Locks, keycard systems, vehicle barrier systems and static and dynamic bollard systems; dock levelers and roll-up and sliding garage doors; storm drainage systems; roofing system investigations and repairs; maintenance and repair of U.S. flag pole, lighting and pulley system; maintenance of kitchen and concessions area drains; and maintenance of conveying equipment, parking control equipment, and loading dock equipment.

B. 96 Completed

1. Alabama – Fort Rucker

Type of Work Accomplished: Vehicle Registration Services

Scope: Provided labor, material and expertise to operate Fort Rucker vehicle registration offices at the Fort Rucker Soldier Service Center and three facility Access Control Points (ACP) located in Ozark, Enterprise and Daleville, AL. Interviewed vehicle owners and/or their authorized representatives to determine their authorization to register and operate their Privately-Owned Vehicles (POV) on Fort Rucker, AL. Ensured only properly identified and eligible personnel were permitted to register privately owned vehicles and gain access to the installation. Implemented changes and advancements in database management applications used at Fort Rucker to ensure continuous improvement.

2. Alaska – Eielson AFB

Type of Work Accomplished: Air Terminal and Ground Handling Services

Scope: Provided all personnel, labor, equipment, supervision, and other items necessary to provide Air Mobility Command (AMC) with Air Terminal and Ground Handling Services, in support of the DOD airlift system, to include: all AMC organic, AMC commercial contract/lease, Civil Reserve Fleet (CRAF), organic Air National Guard, organic Air Force Reserve, and theater/other DOD component assigned organic airlift aircraft and certain Foreign Government aircraft as directed by the designated Government Contracting Officer (CO).

Rendered all specified assistance to deploying/augmentation forces as required for contingency situations. We provided Air Terminal and Ground Handling services to include: Air Terminal Operations Center; Air Freight Service; Load Planning; Aircraft Loading/Offloading; Fleet Services; Passenger Service; Dispatch/Flight Control; Baggage Service; Emergency Service; Communications; Custodial Service and Equipment Maintenance.

3. Alaska – Elmendorf AFB

Type of Work Accomplished: Operation of Base Supply Function

Scope: Responsible for the supply/equipment accounts. We requisitioned, received, inspected, stored, issued, delivered, shipped, transferred, and disposed of supplies and equipment assets to support the 3rd Wing customers, EAFB Tenant units, remote sites, and transient customers at EAFB. We provided oversight for the base repair cycle and provided specialized handling for hazardous, classified, communication security (COMSEC), sensitive, weapons and pilferable assets. In addition, we performed all administrative, filing and office correspondence procedures related to the operation of Supply. This contract included Inventory Control, Customer and Training Services, and Mobility Support.

4. Arizona – Fort Huachuca

Type of Work Accomplished: Aviation Maintenance, Rotary and Fixed Wing Aircraft

Scope: Supported the Directorate of Logistics (DOL) Aircraft Maintenance Branch at Fort Huachuca, AZ. Furnished all management, personnel, materiel, and equipment, unless specified as Government furnished to accomplish the work required by the statement of work. Management: Prepared Program plans and reports as required by contract. Maintenance: Maintained aircraft and aircraft ground support equipment. Support included but was not limited to Preventive Maintenance (PM), lubrication, servicing, repairs, troubleshooting, and diagnosis of malfunctions, removal and replacement of parts, components, and assemblies, overhauling, rebuilding of components, estimating costs of repairs, machine shop alterations, sheet metal repairs, limited welding, spot painting, aircraft air condition servicing and repairing, and aircraft recovery. Aircraft maintained consisted of rotary and fixed wing aircraft. Contract included several types of aircraft that were not standard to the Army system, which were operated by DOD or other Federal Activities. Supply: Requisitioned, received, stored, maintained, inventoried, issued, disposed, and established and maintained formal accountability for all materiel, and equipment required to support the maintenance mission.

5. California – Castle AFB

Type of Work Accomplished: Transient Aircraft Maintenance Services

Scope: Provided all personnel, equipment, tools, materials, supervision and other items and services to perform Transient Aircraft Maintenance Service at Castle AFB, CA., to include Transient Alert Management and Control, Arrival Services, Processing Services, Departure Services within the time frames established to meet transient aircraft arrival, processing and departure schedules. In addition, perform Facilities Management and maintenance, emergency services and program management.

6. California – Fort Hunter Liggett

Type of Work Accomplished: Logistics Support Services

Scope: Provided the appropriate amounts of qualified labor and management necessary to perform all logistics support services (to include functions required to perform named tasks) ordered under this task order in a cost effective, safe and environmentally sound manner. This support focus is primarily on the following areas: Materiel Maintenance, Supply Services, and the associated logistics analysis and management functions in support of the Fort Hunter Liggett mission.

7. California – Los Angeles

Type of Work Accomplished: Passenger Processing Services - Los Angeles International Airport, CA

Scope: Provided personnel, equipment, tools, materials, supervision, and other items necessary to perform Commercial Passenger Services for the Air Mobility Command (AMC) Commercial Gateways on all US Government and Civil Reserve Air Fleet (CRAF) aircraft owned/controlled or operating for AMC requiring services.

8. Type of Work Accomplished: Equipment Management & Warehouse Services for EPA Region 9

Scope: Provided warehouse services to the Environmental Protection Agency (EPA) for emergency and terrorism response equipment, to support the 24-hours a day, 7-days per week (24/7) response capabilities of EPA Region 9's On-Scene Coordinators. Region 9 includes the states/territories of Arizona, California, Nevada, Hawaii, U.S. Flag Territories of American Samoa, Guam; the Commonwealth of the Northern Mariana Islands (CNMI); U.S. Territories of Palmyra, Wake, Midway, Howland and Baker Islands, and Johnston Atoll; the Republics of Palau and the Marshall Islands; and the Federated States of Micronesia.

Operated and managed government-provided secure, central warehouse facilities, including "clean room" spaces, to include all services and functions in accordance with established commercial/government practices. Provided approved users, on 24 hours a day, 7 days a week basis, timely access to government owned equipment and material resources used for emergency and counter terrorism responses in the most efficient manner possible. Properly managed equipment and materials with the use of an appropriate electronic data interchange inventory control/maintenance system and produce adequate and timely reports during the course of the contract. Maintained all emergency response equipment in a continuous state of readiness and ensured manufacturer's recommended maintenance was performed according to a prescribed schedule without impacting response capabilities by having a critical piece of equipment unavailable due to regular maintenance.

9. California – Monterey

Type of Work Accomplished: Transportation Services - Presidio of Monterey

Scope: Provided all phases of Transport Operations, vehicle control, management, and scheduled bus and transport services for Presidio of Monterey, CA and Annex. We provided sufficient, qualified, and trained personnel to satisfactorily perform the work, and performed all management, supervisory, administrative, training, and operations functions to support Government requirements. We provided qualified and properly licensed drivers for tractor/trailers, buses, stake beds, and box trucks on an as-needed basis.

10. Type of Work Accomplished: Logistics Services - Presidio of Monterey and Ord Military Community

Scope: Provided program and management analyses to facilitate logistical planning and implementation of the following, to include, but not limited to: emergency and contingency plans, budget formulation and forecasting, Performance Management Reviews (PMR), Productivity Improvement Reviews (PIR), efficiency studies, Manpower studies, Activity Based Costing/Management (ABC/M), efficiency recommendations, historical reports, management reports, scheduling and tracking of training, Installation Status Reporting (ISR), and manning documents. Attended meetings and conducted briefings. We served as the Action Officer and liaison to coordinate logistical requirements within the directorate and other activities on the Presidio of Monterey (POM) and outside agencies.

We participated in various programs required by POM and higher headquarters. We collected and analyzed data, developed reports, made briefing charts, and provided input to various activities; coordinated and provided input to the Directorate of Resource Management on Inter-Service Support Agreements (ISA) by developing costs and identifying services provided to tenant activities.

Provided, managed and/or operated Logistical Operations: Administrative Support; Supply and Services; Stock and Supplies; Packing, Crating and Shipping Services; Consolidated Installation Property; Warehouse Operations; Textbook Operations; Storage Operations; Food Service Operations; Laundry Support Services; Material Support Services; Material Maintenance; Automotive Maintenance; General Services Administration Leased Vehicles; Communications Equipment Maintenance; Material Handling Equipment Maintenance; Non tactical Special Purpose Equipment Maintenance; Weapons Maintenance; Hazmat Handling; Transportation Services (Freight, Personnel, Personal Property); Quality Assurance; Records Keeping and File Maintenance; and more.

11. California – Travis AFB

Type of Work Accomplished: Basic Expeditionary Airfield Resource (BEAR) Equipment Support

Scope: Provided War Reserve Material (WRM) support at Travis AFB, CA consisting of BEAR 5501, BEAR 550F and Swift BEAR sets plus all associated equipment, spares and consumables. Managed Swift BEAR Equipment, Mobility Readiness Spares Packages (MRSP) associated with the Swift BEAR assets; and provided information to the host base supply function for Air Force Equipment Management Systems (AFEMS) management. Was Responsible for ordering; asset receipt; accountability; serviceability; storage; security; periodic inspection; test; maintenance; repair; corrosion control; out load; and reconstitution of the equipment.

12. California – Vandenberg AFB

Type of Work Accomplished: Base Supply & Fuels

Scope: Provided all personnel, equipment, tools, materials, supervision, and other items necessary to perform the Base Supply/Conventional Fuels Operations under the SBSS. Provided supplies, equipment, POL, and HAZMART product support to authorized customers through the systems and process of the SBSS. Determined requirements; requisitioned, received, stored, distributed and issued material; provided inventory control; researched and maintained records; financial management; computer support; readiness; and management and vehicle operations. Performed maintenance on refueling units to include inspection, testing, servicing, repairs, overhaul, rebuilding, remanufacturing, cannibalization and reclamation of parts, etc.

13. Type of Work Accomplished: Launch Support Services for the 576th Flight Test Squadron

Scope: Provided all management, planning, programming, administration, supplies, vehicles/non-vehicular solutions and labor necessary to ensure that launch support services (launch facility refurbishment, corrosion control services, vehicle issue and control, equipment issue and control, environmental management services, program management services and training management services) were performed for the 576th FLTS at Vandenberg AFB, CA.

14. Type of Work Accomplished: Technical Order Distribution and Maintenance Data Systems

Scope: This acquisition encompassed Technical Order Distribution. Functions to include performing all duties associated with operating and maintaining of the Technical Order Distribution Office, e.g. establishing and maintaining work center sub-accounts, providing dispatch kits, and providing and maintaining a primary reference library.

15. Type of Work Accomplished: Transient Aircraft/AGE Maintenance Services

Scope: Provided all personnel, equipment, tools, materials, supervision, and other items and services necessary to perform Transient Aircraft/AGE Maintenance Services, including transient aircraft support services, transient aircraft/AGE maintenance job control center, arrival, processing, and departure services, management of control programs, facilities, grounds and equipment maintenance and emergency or special events services.

16. Type of Work Accomplished: ICBM Contract - 4 Locations: Vandenberg AFB, CA; MAFB, ND; MAFB, MT; and FE Warren AFB, W Y.

Scope: Provided personnel, equipment, tools, materials, supervision, etc. to perform Logistics Data and Technical Order Library Activities at FE Warren, Malmstrom, Minot, and Vandenberg AFB's along with Materiel Control Activities at Minot AFB. This included maintaining small computers, maintenance, tracking of missile maintenance history, missile maintenance teams, and equipment and vehicle status availability. Produce and distribute monthly Logistics Summaries. Performed all duties associated with the operating and maintaining of the Technical Order Distribution Office, established and maintained work center sub accounts, provide dispatch kits, provide and maintained a primary reference library, maintaining those AF and AFSPC instructions required. Ensure Uninterruptible Power Supply (UPS) and Performance Assessment Software (PAS) Operations.

17. Type of Work Accomplished: Launch Support Services for the 576th Flight Test Squadron

Scope: Performed all base-level Minuteman Launch Facility refurbishment in support of Air Force Space Command's Intercontinental Ballistic Missile (ICBM) Force Development and Evaluation Program, Space and Missile Competition exercises, and special weapon system test program objectives. Refurbishment and support functions included post-launch damage assessment; removal of expended ordnance and damaged weapon system equipment; cleaning and adjustment of the missile suspension system; installation and configuration of major weapon system cables and components for both open and closed launcher closure door configurations; and application of ablative material to protect components from missile blast. Other mission support activities included: providing equipment and personnel man-lift crane operations and special equipment for launch stand-by and contingencies; maintaining refurbishment bench stock; and maintaining, inspecting, repairing, replacing and procuring weapon system equipment.

18. Type of Work Accomplished: Contractor-Operated Civil Engineer Supply Store

Scope: Provided all necessary labor, supervision, equipment, supplies, and materials to manage and operate a Contractor-Operated Civil Engineer Supply Store (COCESS) located on Vandenberg Air Force Base (VAFB), CA. Acquired, issued, delivered and stored a variety of materials, equipment, parts, and supplies for construction, facility maintenance, repair and support of the 30th Civil Engineering Squadron (30 CES) for use by authorized Government personnel.

Provided a simplified method for authorized personnel to purchase quality materials used on work orders for construction, recurring maintenance, repair and support. Personnel in the store provided easy access for authorized individuals to obtain a wide variety of commercial and industrial products via uninterrupted across- the-counter service from store-stock as well as non-stocked items. Personnel utilized the Civil Engineer Material Acquisition System (CEMAS) for all items.

19. California – Naval Postgraduate School, Monterey

Type of Work Accomplished: Property Accountability

Scope: Using the Defense Property and Accountability System (DPAS), established and maintained accountability of personal property in the care of the Naval Post Graduate School personnel. Facilitated key inventory documentation, assess market value, and supported inventory processing. Uploaded key supporting documentation for 20,000 property assets and create fair market valuation documentation for approximately 7,500 assets. Conducted research of equipment in support of the inventory process to include, but not limited to, locating, identifying, and inventorying misplaced equipment.

20. Colorado – United States Air Force Academy

Type of Work Accomplished: Ground Fuels, Aviation Fuels, and Munitions

Scope: Furnished all labor, supervision, vehicles, equipment, tools, materials and other items and services to manage and perform ground fuels, aviation fuels, and munitions support services at the United States Air Force Academy (USAFA), CO and other locations. Operate Ground and Aviation Fuels to fuel and defuel assigned and transit aircraft. Perform operations using the fuels storage systems and the Fuels Enterprise Server (FES). Main functional responsibilities include fueling, defueling, accounting, administration, inventory, scheduling, coordinating, sampling, requisitioning, receiving, storing, distributing and issuing, reporting, researching and maintaining records, providing customer service, and providing support during inspections. Off-Base Fuel Support is provided within a fifty-mile radius, as well as support to the Farish Recreation Area in Woodland Park, CO.

Operated Munitions activities to requisition, receive, issue, store and inspect all munitions, and maintain all support records for the main munitions account utilizing the Combat Ammunitions System (CAS) and the Agile Munitions Support Tool (AMST). Main functional responsibilities included requisitioning, receiving, issuing, storing, inspecting, inventory, distributing, reporting, researching and maintaining records, providing customer service, providing support during inspections and deployments, conducting training and making shipments. Munitions support is also provided for Peterson AFB, Schriever AFB, Cheyenne Mountain, and Fort Carson, CO.

21. Colorado – Aurora

Type of Work Accomplished: Transportation Motor Pool

Scope: Work included the operations of Transportation Motor Pools for Fitzsimons Army Medical Center. Furnish all personnel, equipment, office furniture, and equipment supply. Operated the administration, driver testing, and dispatch function, and provided drivers for scheduled and unscheduled dispatch.

22. Colorado – Buckley AFB

Type of Work Accomplished: Fuels and Mobility Bag (MOBAG) Services - Multi-Wing Logistics Support.

Scope: PMI provided all personnel, equipment, tools, management, etc. to provide Fuels Management

Services including performance of overall contract management, Fuels Laboratory, Fuels Production¹ and Fuels Production⁰

Distribution, Fuels Bulk Storage, Base Service Station, Cryogenics, Fuels Accounting, Fuels Administration, Compliance and Environmental, Resource Control Center, Checkpoint/Preventive Maintenance, and Material Control. PMI also provided MOBAG support including building and maintaining MOBAGs to support continuing deployments. These services were part of the Multi-Wing Logistics support contract. See Peterson AFB, CO for more information regarding the Multi-Wing Logistics support contract.

23. Colorado – Cheyenne Mountain

Type of Work Accomplished: Transportation Shuttle Services - Multi-Wing Logistics Support.

Scope: PMI provided transportation shuttle services to all Department of Defense personnel working at Cheyenne Mountain, CO. This service was part of the Multi-Wing Logistics support contract. See Peterson AFB, CO for more information regarding the Multi-Wing Logistics support contract.

24. Colorado – Fort Carson

Type of Work Accomplished: Transportation Motor Pool Operations

Scope: Provided, managed and operated the Transportation Motor Pool (TMP) at Fort Carson, CO. Supported the mission of Fort Carson by managing the service, maintenance, operations, and dispatches of approximately 430 leased and Government-owned vehicles. All routine vehicle maintenance and repairs were scheduled with locally- approved vendors. A General Services Administration (GSA) Voyager Credit Card was assigned to each GSA leased vehicle for the purchase of fuel, authorized maintenance, and vehicle washing. The TMP was accountable for the credit cards and maintains oversight by collecting and reviewing all charge slips. In addition to fleet management, the TMP also provided bus operations, wrecker service, an on- post shuttle service; and operates a driver testing, training and licensing facility. Vehicle dispatch and wrecker service as well as bus operations was required on short notice in support of Readiness Exercises, major mobilizations and/or extreme buildup of forces.

25. Colorado – Peterson AFB

Type of Work Accomplished: Base Supply, Transportation and Surface Freight - Multi-Wing Logistics Support.

Scope: This acquisition encompassed Base Supply, Transportation and Surface Freight under Air Force Space Command's Multi-Wing Logistics support contract. The objective of the Multi- Wing Contract was for contractor centralization of all wings' supply back shops. Functions included: MICAP, stock control, records maintenance, equipment management, procedures and computer operations. Functions also included vehicle operations, vehicle dispatch and vehicle maintenance plus preparation, packaging, and shipping of surface freight items. PMI provides management, labor, equipment, tools, etc. to operate logistics services at six military installations.

Specific responsibilities included: Transportation, Supply, Fuels, Surface Freight and Shuttle Services for Peterson AFB with satellite accounts at Cheyenne Mountain and Schriever; Supply & Fuels at F.E. Warren AFB; Base Supply and Fuels at Malmstrom AFB, MT; and Base Supply, Fuels, HazMat and the Contractor Operated Civil Engineer Supply Store at Vandenberg AFB, CA.

26. Type of Work Accomplished: Management and Operation of the Base Civil Engineer Logistics and Material Acquisition System

Scope: Provided all personnel, supervision, equipment, tools, materials, and other items and services necessary to manage and operate the Base Civil Engineer Logistics and Material Acquisition System for the 21st Civil Engineer Squadron (CES), Peterson AFB, CO. Maintained and replenished stock and supplies to ensure Peterson AFB, 21st Civil Engineer Material Control operations could be conducted efficiently.

Utilized the Civil Engineer Material Acquisition System (CEMAS) for tracking and managing supply/CE property, ordering, and inventory control. Utilized the Air Force provided hazardous materials tracking system to manage and track all hazardous materials used by CE Operations Flight. Provided guidance and coordination for Civil Engineer logistics functions. Provided administrative support for the Civil Engineer logistics functions. Maintained all acquisition/supply documents and files in accordance with appropriate directives. Operated and maintained databases for Government-furnished systems to include: Civil Engineer Material Acquisition System (CEMAS); Environmental Management and Information System (EMIS); Enterprise Environmental Safety and Occupational Health-Management Information System (EESOH-MIS); and Enterprise Solution/Supply System (ESS) Hazardous Materials Tracking System.

27. Colorado – Schriever AFB

Type of Work Accomplished: Transportation Shuttle Services - Multi-Wing Logistics Support.

Scope: PMI provided transportation shuttle services to all Department of Defense personnel working at Schriever AFB, CO. This service is part of the Multi-Wing Logistics support contract. See Peterson AFB, CO for more information regarding the Multi-Wing Logistics support contract.

28. Florida – Cape Canaveral AFS

Type of Work Accomplished: Vehicle Operations and Maintenance Services

Scope: Provided Vehicle Operations and Maintenance Services for Patrick Air Force Base (PAFB) and Cape Canaveral Air Force Station, FL. Workforce was fully trained, professional, customer oriented and consistently provided responsive, flexible, and cost-effective service. Services were performed in an environmentally acceptable manner consistent with Federal, State and local laws as well as applicable Air Force Instructions (AFI), Air Force Space Command (AFSPC) and 45th Space Wing instructions and local procedures. Provided all management, personnel, equipment, tools, materials, and other items or services necessary for performance, including Fleet Management services and support to ensure Air Force (AF) vehicles were used efficiently and economically. Other services included Financial Management Input; Vehicle Cleaning and Care; Vehicle Wrecker/Recovery Service; Passenger and Cargo Movement; Vehicle/Equipment Management and Analysis; Vehicle and Equipment Maintenance Management; Quality Control; Document, Data and Records Availability/Control; Support of Mobility Deployment, Disaster Preparedness, Exercises, and Contingencies, and Host- Tenant/Inter-service Support Agreements; and more.

29. Florida – Patrick AFB

Type of Work Accomplished: Vehicle Operations and Maintenance Services

Scope: Provided Vehicle Operations and Maintenance Services for Patrick Air Force Base (PAFB) and Cape Canaveral Air Force Station, FL. Workforce was fully trained, professional, customer oriented and consistently provides responsive, flexible, and cost-effective service. Services were performed in an environmentally acceptable manner consistent with Federal, State and local laws as well as applicable Air Force Instructions (AFI), Air Force Space Command (AFSPC) and 45th Space Wing instructions and local procedures.

Provided all management, personnel, equipment, tools, materials, and other items or services necessary for performance, including Fleet Management services and support to ensure Air Force (AF) vehicles were used efficiently and economically. Other services included Financial Management Input; Vehicle Cleaning and Care; Vehicle Wrecker/Recovery Service; Passenger and Cargo Movement; Vehicle/Equipment Management and Analysis; Vehicle and Equipment Maintenance Management; Quality Control; Document, Data and Records Availability/Control; Support of Mobility Deployment, Disaster Preparedness, Exercises, and Contingencies, and Host-Tenant/Inter- service Support Agreements; and more.

30. Georgia – Fort Stewart

Type of Work Accomplished: Transportation Motor Pool (TMP)

Scope: Work included the operations of Transportation Motor Pools for Fort Stewart and Hunter Army Airfield. Furnish all personnel, equipment, office furniture, and equipment supplies. Operated the administration, driver testing, and dispatch function. Provided drivers for scheduled and unscheduled dispatch.

31. Georgia – Hunter Army Airfield

Type of Work Accomplished: Transportation Motor Pool

Scope: Operated and managed the Transportation Motor Pool (TMP) at Hunter Army Airfield, GA, to include administration, driver testing and licensing, and dispatch functions. The vehicle fleet consisted of a wide variety of vehicles, to include sedans, buses, ambulances, light, medium, and heavy cargo type vehicles, including tractor-trailers. At various times there was a surge of more than 125 commercially- leased vehicles. PMI ensured all drivers are qualified to operate all dispatched vehicles.

Some vehicles were operated on a user-driven concept where requesting activities signed out vehicles and furnish drivers for vehicles provided by the TMP. Other vehicles were operated with PMI furnishing drivers, such as sedans, taxis, buses, school buses, tractor/trailer combinations, cargo trucks, etc.

32. Georgia – Robins AFB

Type of Work Accomplished: Transient Aircraft Services

Scope: Performed transient aircraft services in compliance with all applicable laws, regulation standards and commercial practices at Robins AFB, GA. Services included arrival, processing, departure, special events and emergency services. Services also included the launch and recovery of Distinguished Visitors (DV) missions, departing or arriving at the designated DV locations and providing a Crashed, Damaged, or Disabled Aircraft Recovery (CDDAR) Program.

33. Type of Work Accomplished: Vehicle Maintenance and Operations

Scope: Provided all labor, company vehicles, personnel, equipment, tools, materials, supplies, and computer equipment to furnish Vehicle Management and Analysis, Vehicle Operations and Vehicle Maintenance at Robins Air Force Base (AFB), G A. Provide Vehicle Management and Analysis (VM&A) services and maintenance for approximately 1,000 vehicles at Robins Air Force Base and within a permissible operating distance (POD) of 100 miles. Provided Fleet Management services for approximately 1,300 vehicles which include General Services Administration (GSA) leased vehicles. Use the On-Line Vehicle Integrated Management System (OLVIMS) database to manage vehicles maintenance and management programs.

34. Idaho – Mountain Home AFB

Type of Work Accomplished: Library Services

Scope: Provided all personnel, equipment, tools, materials, supervision and other items and services necessary to operate and maintain the Mountain Home AFB, Idaho, Base Library including collection management, financial management, public services, ready and in-depth reference, customer registration, circulation, outreach reference services, education support, technical services, and automation.

35. Illinois – Scott AFB

Type of Work Accomplished: Transient Aircraft Services

Scope: Performed transient aircraft services in compliance with all applicable laws, regulation standards and commercial practices at Scott AFB, IL. Services included arrivals, processing, departures, special events and emergency services. Services also included the launch and recovery of Distinguished Visitors (DV) missions, departing or arriving at the designated DV locations in front of Base Operations (Base Ops).

36. Kansas – Fort Riley

Type of Work Accomplished: POL Tank Farm

Scope: Provided non-personnel services, personnel, management, supervision, labor, materials, supplies, and equipment to operate the Custer Hill Petroleum Oil and Lubricants (POL) Tank Farm at Fort Riley, KS. The Custer Hill POL Tank Farm operation consisted of: Requesting, receiving, storing, inventory accounting, issuing, and recording of fuel; providing required data; and performing quality

surveillance of bulk petroleum products. Fueled military tankers and tank transport vehicles.

37. Kansas – McConnell AFB

Type of Work Accomplished: Furnishings Management

Scope: Provided all labor, management, tools, etc. necessary to operate the base furnishings management office/warehouse and to maintain government-furnished property, perform designated dormitory facility maintenance, perform dormitory linen management and provide, manage, and maintain washers and dryers.

38. Type of Work Accomplished: Library Services

Scope: Provided library services to include acquisitions; administration; automation; cataloging; circulation, collection development; customer and staff training; education support; marketing; public relations and programming; mission support; reference; and technical processing. In addition, submitted reports and documentation and formatted responses, as required, to meet assigned suspense and deadlines.

39. Kentucky – Blue Grass Army Depot

Type of Work Accomplished: Maintenance of Vehicles and Equipment

Scope: Provided all personnel, equipment, tools, materials, supervision, and other items and services necessary to provide vehicle and equipment maintenance services (including preventive maintenance, load test and inspection, repair and overhaul, modifications, spot painting, welding, glass and upholstery service) at Blue Grass Army Depot. The Depot is comprised of approximately 14,000 acres, 150 miles of road, and over 1,000 work locations. Preventive maintenance and repair of vehicles and equipment was performed at any of these locations.

40. Louisiana – Fort Polk

Type of Work Accomplished: Transportation Motor Pool (TMP)

Scope: Work included the operation of Transportation Motor Pool for Fort Polk. We furnished all personnel, equipment, office furniture, and equipment supplies; operated the administration, driver testing, and dispatch function; and provided drivers for scheduled and unscheduled dispatch.

41. Massachusetts – Cape Cod US Coast Guard Air Station

Type of Work Accomplished: Air Traffic Control Tower and Weather Observation/Augmentation Services

Scope: Provided all personnel, supervision, labor, materials, required equipment, supplies and services to ensure the safe, orderly, and expeditious movement of air traffic, fulfill all associated administrative functions and complete documentation, logs, recordings or other functional data as requested by the USCG.

Services also included providing weather observations and reports 24/7 in a manner consistent with the facility designation, presently Limited Aviation Weather Reporting Stations (LAWRS). We also

maintain historical weather observation forms as required by the National Weather Service.

42. Maryland – Andrews AFB

Type of Work Accomplished: Transient T-Line Management Support Services

Scope: Provided all personnel and supervision necessary to provide Transient Line (T-Line) management support services at Naval District Washington, Naval Air Facility (NAF), Andrews Air Force Base (AFB), MD. Services included, but not limited to aircraft launch and recovery services; aircraft inspection and operation maintenance services; ramp operation services; hazardous waste disposal; trash/garbage disposal; aircraft fuel services; aircraft de-icing services; aircraft ladder truck services; aircraft hydraulic services; aircraft lubrication services; liquid oxygen services; and Joint Service Open House (JSOH) Air show support services.

43. Maryland – Baltimore Washington International Airport

Type of Work Accomplished: Passenger Processing Services

Scope: Provided personnel, equipment, tools, materials, supervision, and other items necessary to perform Commercial Passenger Services for the Air Mobility Command (AMC) Commercial Gateways on all US Government and Civil Reserve Air Fleet (CRAF) aircraft owned/controlled or operating for AMC requiring services.

44. Massachusetts – Cape Cod US Coast Guard Air Station

Type of Work Accomplished: Air Traffic Control Tower and Weather Observation/Augmentation Services

Scope: Provide all personnel, supervision, labor, materials, required equipment, supplies and services to ensure the safe, orderly, and expeditious movement of air traffic, fulfill all associated administrative functions and complete documentation, logs, recordings or other functional data as requested by the USCG.

Services also include providing weather observations and reports 24/7 in a manner consistent with the facility designation, presently Limited Aviation Weather Reporting Stations (LAWRS). We also maintain historical weather observation forms as required by the National Weather Service.

45. Massachusetts – Westover ARB

Type of Work Accomplished: Base Operating Services

Scope: Performed nearly all Facilities Maintenance and Logistics-related duties on the installation. Duties were comparable with those of an Air Force Base Logistics Group. Responsibilities included Base Supply; Vehicle Operations and Maintenance; Fuels Management; Traffic Management; Transient Aircraft Maintenance; Weather Services; Real Property Maintenance and Services; and Airfield Management.

46. Michigan – Selfridge ANGB

Type of Work Accomplished: Airfield Management Services, Selfridge ANGB, MI

Scope: Provided safe, effective airfield operations supporting Selfridge Air National Guard Base (SANGB), Michigan. Our most important customers consisted of aircrews and their aircraft, which made the airfield and base operations the first impression for many visitors. It was critical that the airfield be kept at a very high state of readiness at all times and presents a neat and orderly appearance. Airfield support activities were conducted in strict compliance with Air Force (AF), Air National Guard (ANG) and Federal Aviation Administration (FAA) standards which mandate strict safety and security requirements for air operations.

47. Type of Work Accomplished: Base Fuels Distribution Services

Scope: PMI was responsible for the requisitioning, issuing, delivery, accounting and overall management of fuels distribution in direct support of base tenants and transient aircraft at Selfridge Air National Guard Base (SANGB), Michigan. The care and safekeeping of Government Petroleum, Oils and Lubricants (POL) property, for both aviation and ground fuels, was handled under the provisions of this contract. We were accountable for Defense Energy Support Center (DESC) owned fuel pursuant to contract provisions IAW Department of Defense regulations.

48. Mississippi – Columbus AFB

Type of Work Accomplished: Airfield and Fuels Management

Scope: Provided all personnel, equipment, tools, materials, and supervision and other items and services necessary to perform the Airfield Management function. Duties included: Flight Plan Processing, Vehicle Inspection/Operator Maintenance Services, Airfield Inspections, Handling Distinguished Visitors and Special Events.

Provided all personnel, equipment, tools, materials, supervision, and other items and services necessary to perform the Fuels Management Services to include: Fuels Contract Manager, Fuels Laboratory, Fuels Distribution, Bulk Storage, Base Service Station, Cryogenics, Fuels Accounting and Fuels Administration.

49. Mississippi – Keesler AFB

Type of Work Accomplished: Transient Alert Services and Aerospace Ground Equipment Maintenance

Scope: Provided all personnel, supervision, and other items and services necessary to perform Transient Alert (TA) Services and Aerospace Ground Equipment (AGE) Maintenance Services at Keesler AFB, Mississippi. Performed transient aircraft services to include transient aircraft management control, arrival, processing, and departure services. Performed specific tasks within established timeframes to meet transient aircraft arrival, servicing, and departure schedules. Performed servicing, repair, and routine maintenance of Aerospace Ground Equipment (AGE).

50. Missouri – Fort Leonard Wood

Type of Work Accomplished: Logistics Support Services

Scope: Provided a full range of Logistics Support Services – Material Maintenance, Supply Services and Transportation Services – for Fort Leonard Wood, MO. Maintenance included management of equipment repair facilities and providing all supporting functions and material; scheduled and unscheduled maintenance and repair of tactical and non-tactical equipment; field level maintenance on unit-owned equipment and weapons; pass-back maintenance; dining facility appliances and equipment maintenance; technical inspections and production control. Supply includes operation of the Central Issue Facility (CIF); Clothing Initial Issue Point (CIIP); Ammunitions Supply Services (ASP); and Hazardous Material (HAZMAT) management. Transportation Services includes passenger movement and Motor Pool operations.

51. Type of Work Accomplished: ICBM Contract - 4 Locations - VAFB, CA; MAFB, ND; Malmstrom AFB, MT; and FE Warren AFB, W Y

Scope: Provided personnel, equipment, tools, materials, supervision, etc. to perform Logistics Data and Technical Order Library Activities at FE Warren, Malmstrom, Minot, and Vandenberg AFB's along with Materiel Control Activities at Minot AFB. This included maintaining small computers, maintenance, tracking of missile maintenance history, missile maintenance teams, and equipment and vehicle status availability. Produced and distributed monthly Logistics Summaries. Performed all duties associated with the operating and maintaining of the Technical Order Distribution Office, established and maintained work center sub accounts, provided dispatch kits, provided and maintained a primary reference library, maintaining those AF and AFSPC instructions required. Ensured Uninterruptible Power Supply (UPS) and Performance Assessment Software (PAS) Operations.

52. New Jersey – Atlantic City International Airport

Type of Work Accomplished: Aircraft Attendants/Fuel Handlers

Scope: Provided aircraft attendant and fuel handler services for a variety of reciprocating, turboprops and jet aircraft. Dispatched and parked various large and small aircraft. Operated "Follow-Me" vehicles, installed and removed wheel chocks, externally mounted flight control locks, landing gear, locking pins, and air starting and external electric power units. Serviced aircraft lavatory systems and potable drinking water systems. Provided ancillary duties in the aircraft hangar and airport support areas.

53. New Jersey – Elizabeth City US Coast Guard Air Station

Type of Work Accomplished: Air Traffic Control Tower and Weather Observation/Augmentation Services

Scope: Provided all personnel, supervision, labor, materials, required equipment, supplies and services to ensure the safe, orderly, and expeditious movement of air traffic, fulfill all associated administrative functions and complete documentation, logs, recordings or other functional data as requested by the USCG. Services also included providing weather observations and reports 24/7 in a manner consistent with the facility designation, presently Limited Aviation Weather Reporting Stations (LAWRS). We also maintain historical weather observation forms as required by the National Weather Service.

54. New Jersey – McGuire AFB

Type of Work Accomplished: Basic Expeditionary Airfield Resource (BEAR) Equipment Support

Scope: Provided War Reserve Material (WRM) support at McGuire AFB, NJ consisting of BEAR 5501, BEAR 550F and Swift BEAR sets plus all associated equipment, spares and consumables. Managed Swift BEAR Equipment, Mobility Readiness Spares Packages (MRSP) associated with the Swift BEAR assets; and provided information to the host base supply function for Air Force Equipment Management Systems (AFEMS) management. Responsible for ordering; asset receipt; accountability; serviceability; storage; security; periodic inspection; test; maintenance; repair; corrosion control; out load; and reconstitution of the equipment.

55. North Carolina – Elizabeth City US Coast Guard Air Station

Type of Work Accomplished: Air Traffic Control Tower and Weather Observation/Augmentation Services

Scope: Provide all personnel, supervision, labor, materials, required equipment, supplies and services to ensure the safe, orderly, and expeditious movement of air traffic, fulfill all associated administrative functions and complete documentation, logs, recordings or other functional data as requested by the USCG.

Services also include providing weather observations and reports 24/7 in a manner consistent with the facility designation, presently Limited Aviation Weather Reporting Stations (LAWRS). We also maintain historical weather observation forms as required by the National Weather Service.

56. North Carolina – Fort Bragg

Type of Work Accomplished: Transportation Motor Pool

Scope: Provided personnel and services to support the Fort Bragg Transportation Motor Pool (TMP) contract areas of vehicle dispatch services, operator licensing, shuttle bus support, and personnel and baggage movement. The TMP fleet consisted of approximately 1,500 non-tactical vehicles such as sedans, buses, ambulances, light/medium/heavy cargo vehicles (including tractor-trailers), and other types of vehicles.

57. North Carolina – Camp Lejeune

Type of Work Accomplished: Motor Vehicle Operations and Maintenance

Scope: Provided all services required to support Transportation Operations and Maintenance for Marine Corps Base, Camp Lejeune, NC. Services included managerial, administrative, supervisory, training and operations with duties such as vehicle dispatch; wrecker/roadside assistance; bus service; vehicle escort service; vehicle washing; key and lock service; vehicle maintenance; installation, transfer and removal of special equipment; and service inspections. Additional tasks included reporting requirements, tests and certifications.

58. North Carolina – Pope Army Airfield

Type of Work Accomplished: Transportation Motor Pool

Scope: Provided all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform Transportation Motor Pool (TMP) services at Pope Army Airfield, NC. Provided customer services in the dispatching, shuttle bus services, passenger and baggage movements, aircrew and baggage transportation, and transportation of returning and deploying service member.

59. North Dakota – Grand Forks AFB

Type of Work Accomplished: Furnishings Management and Dormitory Room Maintenance

Scope: Provided all management, labor, tools, equipment, transportation, and materials necessary to operate the base Furnishings Management Office (FMO) at Grand Forks AFB and maintain government- furnished property in support of the Dormitories and Fire Department.

Services included Furnishing Management, Control and Disposition of Assets, Carpet and Rug Cleanings, Minor Maintenance for Dorm Furnishings and Appliances, Inspections, and Change of Occupancy Maintenance for facilities. Examples of services included providing furniture and furnishings for dormitories, lodging, unaccompanied officer and non-commissioned officer (NCO) quarters, and fire department sleeping and entertainment areas. Services also included inventory; repair; pickup and delivery; processing requisitions and work orders; establishing and maintaining budgets and plans; and all actions related to management of government-provided furniture, equipment, tools, facilities and other property.

60. North Dakota – Grand Forks AFB

Type of Work Accomplished: Transient Aircraft Services and Corrosion Control (Aircraft Washing)

Scope: Performed transient aircraft ground, fleet, and corrosion control services. Provided services required to safely prepare for, and properly park transient aircraft. Provided services required to safely process transient aircraft, as requested by the aircraft commander. Provided services required for aircraft departure in accordance with all applicable safety requirements. Provided aircraft fleet servicing, including materials, for all Transient Aircraft and all KC-135 aircraft assigned to Grand Forks AFB. Provided aircraft wash services for all aircraft assigned to the 319th Aircraft Maintenance Squadron. Assisted, as required, with transient aircraft and assigned base aircraft emergencies. Assisted, as required, with Grand Forks' annual open house/airshow and deploying units.

61. North Dakota – Minot AFB

Type of Work Accomplished: ICBM Contract - 4 Locations - VAFB, CA; Minot AFB, ND; MAFB, MT; and FE Warren AFB, WY

Scope: Provided personnel, equipment, tools, materials, supervision, etc. to perform Logistics Data and Technical Order Library Activities at FE Warren, Malmstrom, Minot, and Vandenberg AFB's along with Materiel Control Activities at Minot AFB. This includes maintaining small computers, maintenance, tracking of missile maintenance history, missile maintenance teams, and equipment and vehicle status availability. Produce and distribute monthly Logistics Summaries. Performed all duties associated with

the operating and maintaining of the Technical Order Distribution Office, establish and maintain work center sub accounts, provide dispatch kits, provide and maintain a primary reference library, maintaining those AF and AFSPC instructions required. Ensure Uninterruptible Power Supply (UPS) and Performance Assessment Software (PAS) Operations.

62. Ohio – Wright-Patterson AFB

Type of Work Accomplished: Fuels Management

Scope: Provided all personnel, supervision, equipment, tools, materials, facilities and other items and services which were necessary to perform Fuels Management services (operations, testing, storage, and issue) at Wright Patterson Air Force Base (WPAFB), Ohio.

Performed all functions as prescribed in AFI 23-201, Fuels Management, DoDM 4140.25, Management of Bulk Petroleum Products, Natural Gas, and Coal, Defense Energy Support Center (DESC) Interim Implementation and Procedural Guidance, and all applicable manuals and directives for the management and efficient distribution of all assigned petroleum, propellants, and ground fuels products provided. Accomplished responsibilities pertaining to Organizational Fuel Tanks in accordance with applicable directives. Handled customer requests for aviation or ground fuels may be by phone, radio, or in-person at the Fuels Service Center (FSC). Performed preventive maintenance of facilities assigned for use in accordance with applicable directives. Handled all Fuels Compliance and Environmental work, plus Laboratory testing/analysis and other duties, ensuring numerous petroleum products were safe for use.

63. Oklahoma – Tinker AFB

Type of Work Accomplished: Technical Order Distribution

Scope: Performed all duties associated with operating and maintaining of the Technical Order Distribution Office, e.g. establishing and maintaining work center sub-accounts, providing dispatch kits, and providing and maintaining a primary reference library.

64. Type of Work Accomplished: Base Supply

Scope: Provided all personnel, equipment, tools, materials, supervision, and other items and services necessary to perform Base Operating Support. This requirement included tenant units, Air Force Detachments, Satellites, and other off-base activities. Included meeting and providing Materiel Requirements; Requisition and Follow-up; Receipt and Storage of Materiel; Distribution and Issue Requirements; Inventory Control; Records Maintenance; Financial Management; and Customer Service Support.

65. Oklahoma – Tinker AFB

Type of Work Accomplished: Base Supply (SBSS) and Munitions

Scope: Provided all personnel, vehicles, equipment, tools, materials, supervision, and other items and services necessary to manage and provide all Base Supply and Munitions services. Responsible for base supply, equipment and munitions accounts. Requisition, receive, inspect, store, issue, deliver, ship, transfer and dispose of supplies, equipment and munitions assets to support customers on Tinker

AFB, to include tenant units and transient customers. Manage and provide services in the following functional areas: Precious Metals Recovery Program (PMRP), Due-in-from -Maintenance (DIFM), Repair Cycle, Individual Equipment Unit (IEU), Bench Stock, Time Compliance Technical Order (TCTO), Supply Point, Demand Processing, Research, Hazardous Material Management System (HMMS), Stock Control, Equipment Management, Procedures and Analysis, Inventory, Readiness and Mobility, Customer Training, Document Control, and Munitions. Also process Depot Maintenance Accountability and Production System (DMAPS) rejects.

66. Type of Work Accomplished: Fuels Management

Scope: Provided all personnel, equipment, tools, management, etc. to perform Fuels Management Services. Included performance of overall contract management, Fuels Laboratory, Fuels Product Distribution, Fuels Bulk Storage, Base Service Station, Cryogenics, Fuels Accounting, Fuels Administration, Compliance and Environmental, Resource Control Center, Checkpoint/Preventive Maintenance, and Material Control.

67. Type of Work Accomplished: Base Supply Material Storage & Distribution

Scope: Provided all personnel, equipment, tools, materials, supervision, and other items and services necessary to perform Base Operating Support, specifically the Material Storage and Distribution functions of Base Supply. This contract supported tenant units, Air Force Detachments, Satellites, and other off-base activities. It included general supply services, inventory control, mobility support, munitions and vehicle/equipment support. The scope of munitions functions was very robust, including a full-range of handling, shipping, packaging and customer support of conventional munitions.

68. Type of Work Accomplished: Technical Order Distribution Office and Maintenance Services

Scope: Provided all labor, tools, equipment, test equipment, communication equipment, material, parts, quality control, transportation, inspection manuals, personal protective equipment and clothing, hearing and eye protection, and all incidentals necessary to perform as a Technical Order (TO) Distribution Office (TODO). Provided support to establish and maintain new and existing paper and digital Technical Order libraries, manage TO quantities, distribution, file data maintenance, copying whole or portions of paper Tech Orders, and routine and annual inspection of Type I and Type II Paper Technical Order Libraries. Workload consisted of approximately 25,000 paper Tech Orders in 40 buildings, and 30 digital libraries with approximately 12,000 digital Tech Orders, and 70 eTool cabinets with 1,000 eTools in 15 buildings at Tinker AFB, OK for the 76 Maintenance Wing. Work included maintenance of the physical appearance and condition of the libraries, binders, file folders and contents. Work also included serving as the Subject Matter Expert (SME) for the technical data function and performing as liaison between the system technical staff and functional users.

69. South Carolina – Charleston AFB

Type of Work Accomplished: Transient/Enroute Aircraft Services

Scope: Provided all personnel, equipment, tools, materials, supervision and other items and services to perform Transient Aircraft Maintenance Service at Charleston AFB, SC., to include Transient Alert Management and Control, Arrival Services, Processing Services, Departure Services within the timeframes established to meet transient aircraft arrival, processing and departure schedules. In addition, perform Facilities Management and maintenance emergency services and program management.

Type of Work Accomplished: Passenger Processing Services - Charleston International Airport, SC

Scope: Provided personnel, equipment, tools, materials, supervision, and other items necessary to perform Commercial Passenger Services for the Air Mobility Command (AMC) Commercial Gateways on all US Government and Civil Reserve Air Fleet (CRAF) aircraft owned/controlled or operating for AMC requiring services.

70. South Dakota – Ellsworth AFB

Type of Work Accomplished: Transient Aircraft Services

Scope: Provided personnel, equipment, tools, materials, supervision and other items necessary to perform Transient Aircraft Services, including transient aircraft support services, management of control programs, facilities, ground and equipment maintenance and emergency or special events services.

71. Texas – Austin

Type of Work Accomplished: Facilities Maintenance and Custodial Services

Scope: Performed full facilities maintenance services for the VA IT Data Center and Treasury building in downtown Austin. Services included mechanical maintenance, custodial services, grounds maintenance, snow removal and pest control services.

72. Texas – Brooks AFB

Type of Work Accomplished: Chemical Inventory Management Services

Scope: Provided all personnel, equipment, tools, materials, and supervision and other items and services necessary to perform Chemical Inventory Management Services and Hazardous Waste (HAZW ASTE) Management Services. Duties included: Maintain inventory of stored chemicals; monitor requests for new chemicals; maintain computerized HAZW ASTE tracking system; and, eliminate excess dated chemicals from stock before they become hazardous waste.

73. Texas – Dyess AFB

Type of Work Accomplished: Transient Aircraft Services

Scope: Provided all personnel, equipment, tools, materials, supervision, and other items and services necessary to perform Transient Aircraft Services. Performed transient aircraft services to include aircraft arrival, processing and departure services in accordance with various directives. Performance included emergency services and support of special events. Texas – Fort Sam Houston

Type of Work Accomplished: Wounded Warrior Vehicle Operator Services

Scope: Transported Wounded Warriors and their family members to and from scheduled medical appointments and rehabilitation programs that cover the San Antonio, Austin and other surrounding areas. Vehicle Operators drove on shuttle routes daily, as well as to and from events that involve Wounded Warriors and their family members.

74. Texas – Fort Bliss

Type of Work Accomplished: Air Traffic Control Services

Scope: Provided all personnel, equipment, tools, materials, supervision and other items and services necessary to perform Air Traffic Control Services at Biggs Army Airfield, Ft. Bliss, Texas. Responsible for providing ATC services including control of air traffic, monitor radio equipment, maintain audible recordings, provide OJT military ATC's, formulate and utilize detailed equipment checklists, maintain ATC equipment, provide advisory services, administrative services, facilities maintenance, environmental control, security and safety requirements, and support agreements. Fort Bliss has an ATC Tower to control air and ground traffic, and an Airspace Information Center (AIC) that provides flight following services to aircraft flying in Fort Bliss managed airspace and any training/test flight areas occupied by Ft Bliss stationed or tenant aircraft in a 10 nautical mile radius of Ft Bliss.

75. Texas – Goodfellow AFB

Type of Work Accomplished: Furnishings Management

Scope: Provided all management, labor, tools, equipment, transportation, and materials necessary to operate the base furnishings management office and maintain government-furnished property in support of Goodfellow Air Force Base. Services included providing furniture and furnishings for dormitories, lodging, unaccompanied officer and non-commissioned officer (NCO) quarters, and fire department sleeping and entertainment areas. Services also included inventory; repair; pickup and delivery; processing requisitions and work orders; establishing and maintaining budgets and plans; and all actions related to management of government- provided furniture, equipment, tools, facilities and other property.

76. Texas – Joint Base San Antonio

Type of Work Accomplished: Furnishings Management Operations

Scope: Provided Furnishings Management Operations (FMO), including all personnel, supervision, management, tools, pallets, materials/banding equipment and other equipment, transportation, forklifts, dollies, pallet jacks, and all materials necessary to successfully operate an FMO in accordance with Air Force Instruction (AFI) 32-6004, Furnishings Management. Major operational aspects include, but are not limited to, sustaining and managing warehouses, deliveries of furnishings and appliances, and repairing furniture and appliances.

Support was provided for seven (7) military installations in the Joint Base San Antonio (JBSA), TX community: Lackland AFB, Medina Training Annex, Kelly Field Annex, Camp Bullis Training Annex, Randolph AFB, Seguin Fire Station, and Fort Sam Houston. Management and operation throughout the JBSA community included receiving, storing, issuing, repairing, delivering, and turn in of government- owned furnishings and appliances for use in government owned/leased quarters and other facilities. Some of the other functional areas included accountability and inventory, operation of the Enterprise Military Housing (EMH) automated database and utilization of other software programs. Operations complied with local, state, and Environmental Protection Agency (EPA) rules and regulations and other directives. Error-free accountability and inventory of furnishings and appliances is paramount.

77. Texas – Randolph AFB

Type of Work Accomplished: Transient Aircraft Services

Scope: Provided personnel, equipment, tools, materials, supervision, and other items and services necessary to perform transient aircraft services to include transient management/control, arrival services, processing and departure services; and, eliminate excess dated chemicals from stock before they become hazardous waste.

78. Type of Work Accomplished: Airfield Management Services

Scope: Provided all personnel, equipment, tools, materials, and supervision and other items and services necessary to perform the Airfield Management function. Duties include: Flight Plan Processing, Vehicle Inspection/Operator Maintenance Services, Airfield Inspections, Handling Distinguished Visitors and Special Events.

79. Texas – San Antonio

Type of Work Accomplished: Facilities Maintenance and Custodial Services

Scope: Performed full facilities maintenance services for six federal facilities in the San Antonio area. Services include mechanical maintenance, custodial services, grounds maintenance, snow removal and pest control services. Buildings serviced: San Antonio Federal Building, J. Woods US Courthouse, Garcia Federal Building / US Courthouse, Spears Training Center, and the Federal Parking Garage in San Antonio. We also service the Pearsall Federal Building / US Courthouse in Pearsall, TX.

80. Texas – Sheppard AFB

Type of Work Accomplished: Vehicle Maintenance

Scope: Provided all personnel, equipment, tools, materials, and supervision and other items and services necessary to perform Vehicle Maintenance Services at Sheppard AFB, TX. Duties included maintenance of general and special purpose vehicles to include refueling trucks and fire trucks; material control, maintenance control, reports and analysis, diagnosis and minor repair, tire repair, automotive body repair, paint, corrosion control, in the field repair, mobile services and recycle antifreeze.

81. Type of Work Accomplished: Airfield Management

Scope: Provided all personnel, equipment, tools, materials, and supervision and other items and services necessary to perform the Airfield Management function. Duties included: Flight Plan Processing, Vehicle Inspection/Operator Maintenance Services, Airfield Inspections, Handling Distinguished Visitors and Special Events.

82. Type of Work Accomplished: Vehicle Operations and Maintenance

Scope: Provided all personnel, equipment, tools, materials, and supervision and other items and services necessary to perform Vehicle Operations and Maintenance services at Sheppard AFB, TX. Duties include dispatching scheduled and unscheduled vehicles, operate driver testing section, maintenance of general and special purpose vehicles to include refueling trucks and fire trucks.

83. Utah – Hill AFB

Type of Work Accomplished: Hazardous Materials Handling, Management and Pour-Down Facility Support

Scope: Provided all management, labor, and equipment necessary to minimize Hazardous Materials (HAZMAT) usage while ordering, receiving, handling, transporting, distributing, tracking, and disposing of HAZMAT. Operations conducted accordance with all environmental regulations and Air Force Instructions. Examples of some of the work included “pour-down” of HAZMAT into various size containers usable on aircraft and aircraft component maintenance lines; distribution of HAZMAT to the requiring cell activities; and recycling or disposing of the products to minimize HAZMAT waste. Services also required delivery and pickup of material in depot supply or other outlying areas; conducting and documenting inventories; printing and affixing labels; and frequent operation of the Enterprise Environment Safety & Occupational Health Management System (EESOH-MIS).

84. Vermont – Land Ports of Entry (LPOE)

Type of Work Accomplished: Facilities Operations and Maintenance Services, – various locations in Vermont

Scope: PMI provided management, supervision, personnel, labor, materials, equipment, and supplies and was responsible for the efficient, effective, economical, and satisfactory operation, scheduled and unscheduled maintenance, and repair of equipment and systems located within the property line of the Beebe Plain LPOE, Beecher Falls LPOE, Canaan LPOE, Derby I-91 LPOE, Derby Line Rt 5 LPOE, East Richford LPOE, North Troy LPOE, Norton LPOE, Richford LPOE and West Berkshire LPOE.

Work included the following Electrical systems and equipment; Mechanical, plumbing, Building Automation System (BAS), heating, boilers, chillers, ventilation systems, exhaust systems and air conditioning (HVAC) systems and equipment; Fire protection and life safety systems and equipment; Building Monitor and Controls systems; Architectural and structural systems, fixtures, and equipment; Work Request and Work Order desk operations, to include record keeping using a National Computerized Maintenance Management System (NCMMS), as well as other administrative functions; Mechanical equipment for window washing (wall glider, tracks, davits, pedestals and associated equipment); Locks, keycard systems, vehicle barrier systems and static and dynamic bollard systems; Dock levelers and roll-up and sliding garage doors; and Elevator and vertical transportation systems, including locks and keycard systems.

85. Washington – Fairchild AFB

Type of Work Accomplished: Furnishings Management

Scope: Provided personnel, equipment, tools, materials and supervision to perform furnishings management procedures and to be primary custodian for all assets located in the backup warehouse and within housekeeping and non-housekeeping quarters. Also, provided customer support and maintained current lists of dormitory representatives having responsibilities and briefed of custodians of their supply responsibilities. We also provided maintenance of supply and equipment accounts, and provision of furnishings accountability.

86. Type of Work Accomplished: Transient Aircraft Services

Scope: Provided personnel, equipment, tools, materials, supervision, and other items and services necessary to perform transient aircraft services to include transient management/control, arrival services, processing and departure services.

87. Washington – McChord AFB

Type of Work Accomplished: Transient Aircraft Services

Scope: Provided all personnel, equipment, tools, materials, supervision and other items and services to perform Transient Aircraft Service at McChord AFB, W A, to include Transient Alert Management and Control, Arrival Services, Processing Services, Departure Services within the timeframes established to meet transient aircraft arrival, processing and departure schedules. In addition, performed Facilities Management and maintenance emergency services and program management.

88. Washington – SeaTac

Type of Work Accomplished: Passenger Processing Services

Scope: Provided personnel, equipment, tools, materials, supervision, and other items necessary to perform Commercial Passenger Services for the Air Mobility Command (AMC) Commercial Gateways on all US Government and Civil Reserve Air Fleet (CRAF) aircraft owned/controlled or operating for AMC requiring services.

89. Wisconsin – Gen Mitchell I AP-ARS

Type of Work Accomplished: Base Operating Services

Scope: Performed nearly all Logistics-related duties on the installation. Duties were comparable with those of an Air Force Base Logistics Group. Responsibilities included Base Supply; Vehicle Operations and Maintenance; Fuels Management; Traffic Management; Real Property Maintenance and Services; and Airfield Management.

90. Wyoming – FE Warren AFB

Type of Work Accomplished: ICBM Contract - 4 Locations - VAFB, CA; MAFB, ND; MAFB, MT; and FE Warren AFB, WY

Scope: Provided personnel, equipment, tools, materials, supervision, etc. to perform Logistics Data and Technical Order Library Activities at FE Warren, Malmstrom, Minot, and Vandenberg AFB's along with Materiel Control Activities at Minot AFB. This included maintaining small computers, maintenance, tracking of missile maintenance history, missile maintenance teams, and equipment and vehicle status availability. Produced and distributed monthly Logistics Summaries. Performed all duties associated with the operating and maintaining of the Technical Order Distribution Office; established and maintained work center sub accounts, provided dispatch kits, provided and maintained a primary reference library, maintaining those AF and AFSPC instructions required. Ensured Uninterruptible Power Supply (UPS) and Performance Assessment Software (PAS) Operations.

91. Type of Work Accomplished: Base Supply - FE Warren AFB, W Y - Multi-Wing Logistics Support

Scope: This acquisition encompassed Base Supply under the Multi-Wing Logistics support contract. The objective of the Multi-Wing Contract was for contractor centralization of all wings' supply back shops. Functions included: MICAP, stock control, records maintenance, equipment management, procedures and computer operations. Duties also include responsibilities with supply and equipment

accounts; requisitioning, receiving, inspecting, storing, issuing, delivering, shipping, transferring, and disposing of supplies and equipment assets. See Peterson AFB Base, CO for more information regarding the Multi-Wing Logistics support contract.

92. Type of Work Accomplished: Technical Order Distribution and Maintenance Data Systems

Scope: This acquisition encompassed Technical Order Distribution. Functions include performing all duties associated with operating and maintaining of the Technical Order Distribution Office, e.g. establishing and maintaining work center sub-accounts, providing dispatch kits, and providing and maintaining a primary reference library.

93. Rhode Island – Naval Station Newport

Type of Work Accomplished: Security Monitoring Services

Scope: Provided all personnel, supervision and oversight, training, any required transportation and security monitoring services for the unarmed, non-law enforcement, internal alarm monitor services. Provided monitoring of alarms as an unarmed alarm monitor (24/7/365 coverage). In addition to alarm monitoring, services included support of an advanced Electronic Security System (ESS), which monitors critical areas within the installation and coordinates and documents response when alarms are activated. Other services included being the point-of-contact (POC) for emergency response efforts to unlock secured doors, acting as the NUWC DIVNPT Command Duty Officer (CDO) representative (administrative duties only), coordinating response with Naval Station Newport's Emergency Services/Public Safety (i.e., Medical, Police, Fire), recording reports received and contacting designated POCs for repair action (e.g., floods, broken lighting, structural and utilities damage), and providing field assistance for authorized personnel to access secured building or office spaces within the installation and NUWC DIVNPT assets located on Naval Station Newport.
